

Computer Aided Design Specialist Practice Test Questions and Answers

1. What does CAD stand for in design and engineering?

- A) Computer Aided Development
- B) Computer Aided Design
- C) Computer Automated Drawing
- D) Computer Analysis Design

2. Which file format is commonly used for 3D CAD model exchange between different software packages?

- A) .txt
- B) .jpg
- C) .step or .iges
- D) .docx

3. What is parametric modeling in CAD software?

- A) Drawing without any constraints
- B) Using parameters and relationships to control geometry
- C) Only creating 2D drawings
- D) Manual drafting techniques

4. Which operation is used to create a 3D object by rotating a 2D profile around an axis?

- A) Extrude
- B) Revolve
- C) Sweep
- D) Loft

Answers: 1-B 2-C 3-B 4-B
