

TDA Practice Test Questions and Answers

1. What makes a claim in a TDA response 'arguable'?

- A) It takes a specific position that requires evidence to support and could be reasonably disputed
- B) It is a fact that everyone already knows and agrees on
- C) It summarizes both sides of an issue equally without taking a position
- D) It is copied directly from the text without any rewording

2. What does it mean to 'warrant' evidence in a TDA essay?

- A) To explain the logical reasoning that connects the evidence to the claim
- B) To place the evidence in quotation marks
- C) To list the page number or paragraph where the evidence was found
- D) To paraphrase the evidence into your own words

3. What are 'context clues' and how do they appear in a text?

- A) Words or phrases near an unfamiliar word that hint at its meaning through definition, example, contrast, or restatement
- B) Notes or glossary entries added in the margins of a text
- C) Clues hidden in the title and headings only
- D) The first and last sentences of each paragraph

4. What signal words indicate a 'cause-and-effect' text structure?

- A) 'As a result,' 'because,' 'therefore,' and 'consequently'
- B) 'First,' 'next,' 'then,' and 'finally'
- C) 'However,' 'although,' and 'on the other hand'
- D) 'For example,' 'specifically,' and 'in particular'

Answers: 1-A 2-A 3-A 4-A
